## Work Experience

Senior Product Manager, ClockShark | 3 years | 3.2022 – Present

- Defined company-wide 2025 OKRs with application on cross-functional roadmaps and cross-business product targets.
- Built a comprehensive analytics strategy leveraging existing tools. Analyzed over 1,500 feedback items and implemented a feedback-driven product process resulting in 20+ roadmap initiatives and a consistent feedback pipeline for product validation.
- Plan 12-month roadmaps based on ROI leveraging data-driven features, user feedback loops, and business objectives.
- Launched a mobile app from 0 to 1 on Xamarin Forms in less than 5 months.

Senior Product Owner – Mobile, VF Corp @ The North Face | 1 year | 1.2022 – 3.2022

Product Owner – Mobile (contractor) | 4.2021 – 1.2022

- Consulted on international Vans products to improve internal processes, guide a long-term roadmap, and reduce delivery times.
- Published a Kotlin app from 0 to 1 in 3 months with a 6-month implementation plan to reach iOS feature parity.
- Improved iOS app store ratings through delivering rewrites and refactors focusing on critical features.
- Maintained a stockroom inventory app for over 50 national and international retail locations to manage in-store supplies.

Product Owner III, Comcast Business (via Think Company) | 1 year 10 months | 7.2019 – 4.2021

- Hired and relocated from the contracted design team to work as Product Owner on the same Research & Development team.
- Validated 3 B2B product opportunities through market research and SQL data collection; presented executives test results.
- Launched a Unified Communications as a Service desktop app from 0 to 1 with a team of 10 engineers and 2 designers.
- Saved \$25,000 in annual business costs + 12% traffic growth for a B2B Cloud Marketplace with a third-party platform migration.

Senior Product Designer (contracting on Comcast Business), Think Company | 1 year | 1.2019 – 6.2019

Product Designer (contracting on Comcast Business) | 7.2018 – 1.2019

- Led 2 designers in delivering a B2B Unified Communications as a Service app for over 10,000 Comcast Business customers.
- Achieved an 8% uptick in sprint velocity through optimized cross-functional deliveries with designer-developer documentation.
- Conducted over 30 moderated and unmoderated user research interviews to validate new app prototypes.

Product Designer and Owner, RevZilla | 2 years | 8.2017 – 7.2018

Associate Product Designer | 8.2016 – 8.2017

- Enabled 20% growth for site-wide conversion through a re-platform and redesign focused on cart, checkout, and payments.
- De-risked international business operations with an iterative GDPR strategy in alignment with local laws.
- Designed site-wide, component-based e-commerce UX with a content management system (CMS) for marketing campaigns.
- Created cross-functional relationships and mentored 3 associates to improve agile practices and communication across 5 teams.

Web Designer and Frontend Developer, Pixel Parlor | 1 year | 8.2015 – 7.2016

- Developed 3 movie sites for IFC films with frontend customizations for WordPress and Shopify websites.
- Led end-to-end consultations from initial kickoff through final project delivery for over 20 revenue-generating projects.
- Worked with customers, developers, and business owners to deliver designs and build websites on a 5-person startup team.

Web Designer and Frontend Developer, D4 Creative Group | 10 months | 11.2014 – 8.2015

- Designed websites from UX to UI for clients ranging from law offices to telecom service providers.
- Completed frontend development (HTML, CSS) for client websites.

Digital Marketing Designer (contractor), QVC | 5 months | 6.2014 – 11.2014

- Developed an online ad strategy that led to a 2% increase in ad interaction across all sizes:
  - Delivered a brand style guide for seasonal online marketing ads producing 30% more ad deliveries.
  - Reduced ad purchases from 7 to 4 sizes resulting in expanded ad reach across all 4 sizes.

• Web Designer (contractor), PPL Corp | 3.2014 – 6.2014

• Motion Design Intern, Zone5 Creative | 1.2013 – 4.2013

• Web Production Artist (contractor), Hibu | 9.2013 – 3.2014

• Print Design Intern, Replica Creative | 6.2012 – 8.2012

## Product Philosophy

Excellent products come from empowered teams that are respected and aligned with the business. Human-centered leadership creates environments that foster cross-functional collaboration, leading to solutions grounded in user-centered needs. When product leaders leverage qualitative and quantitative data to drive decisions, teams rally to deliver scalable, long-term product value that resonates with customers and creates sustainable success.

## Notable Tools

- SQL, GA4, Mixpanel, Tableau
- chatGPT, Gemini
- Play Console, TestFlight
- LaunchDarkly, Github
- Productboard, UserTesting
